Category: Scientific and Life Skills

Speakers/Presenters: Ms. Sakshi Jain

Organized for: Students from classes 5 - 8

Date: January 4, 2024

No. of Participants: 500+ students from different schools across India

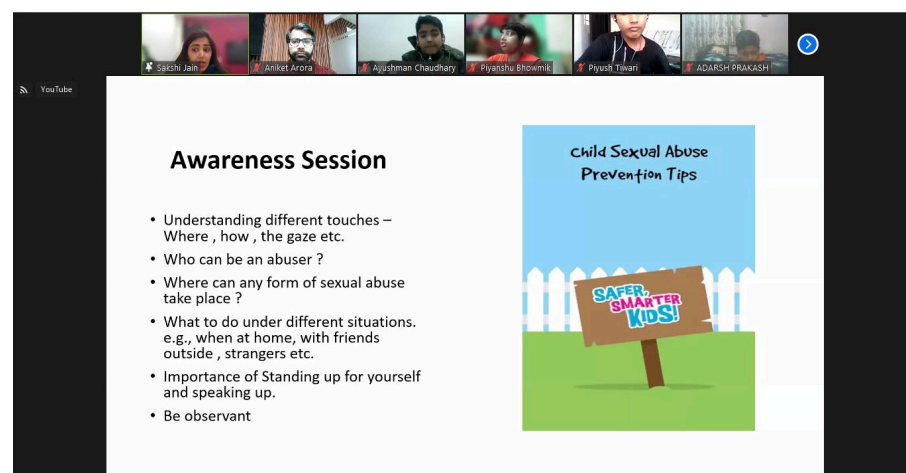

Overview:

On 4th January 2024, Knowledge and Awareness Mapping Platform (KAMP) successfully conducted its 42nd exclusive knowledge-sharing session, titled "POCSO and Child Rights: A Workshop from Awareness to Action." The workshop had an active participation with more than 500 students, ranging from classes 5th to 8th, representing various schools all across India.

Mr. Aniket Arora, the convener of the session, emphasized the importance of addressing issues of utmost significance, ensuring the safety, well-being, and understanding of rights for the young minds.

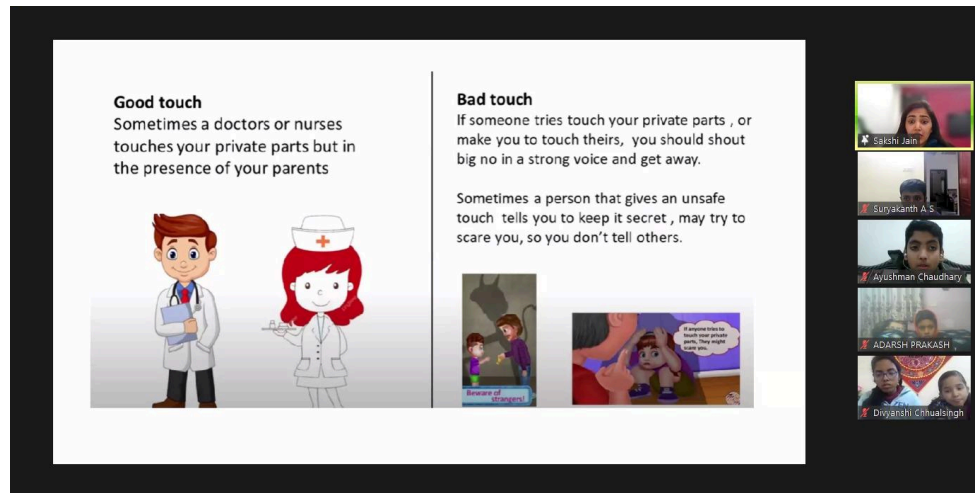

The workshop was expertly facilitated by Ms. Sakshi Jain, a renowned Corporate Trainer cum Facilitator with deep associations in spreading awareness about POCSO and the role of children, parents, and teachers in creating a safe space for children.

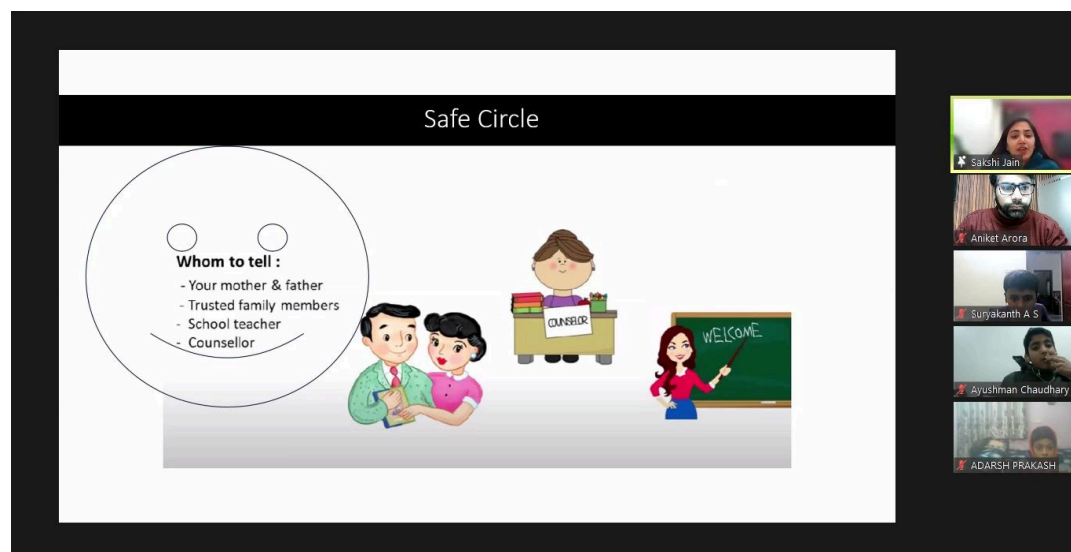

The workshop was a transformative experience, with a primary focus on essential concepts such as 'Good Touch and Bad Touch,' aiding students in recognizing instances of physical and verbal abuse. Additionally, the session aimed at empowering students to respond effectively when confronted with challenging situations.

A key highlight of the workshop was a deep dive into the intricacies of the Protection of Children from Sexual Offences (POCSO) Act and Child Rights. The students gained invaluable insights, which are expected to significantly influence their understanding and decision-making in the future. Under the expert guidance of Ms. Sakshi, participants were equipped with a comprehensive toolkit to navigate complexities that may arise, ensuring they are well-prepared to address sensitive issues.

The emphasis placed on Child Rights during the workshop has left an indelible mark on the participants. It fostered a profound awareness that every child is entitled to a secure and nurturing environment where their rights are not only recognized but also actively safeguarded.

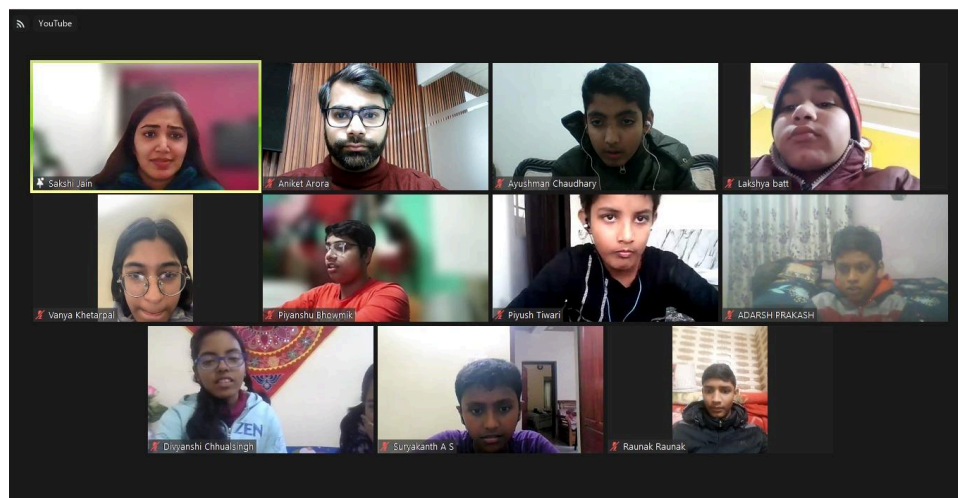

The purpose of KAMP's fortnightly workshops is to help students develop creativity, meaningful learning, and critical reading and thinking skills that bring out their inherent abilities. The vision of KAMP is to identify and capture Scientific and Technological temperament in students to make India a Global Leader in the fields of Science, technology, and the humanities.

Such workshops, conducted by KAMP, deal with various topics that fall under the categories of Science, technology, and innovation, Scientific and Life Skills, Career and Professional Development, Academic development, and training trainers and teachers.

KAMP believes that with exposure to such topics from experts within such specific fields, students will become aware of real-life situations and challenges, develop a helping, problem-solving nature wherever possible, understand their core values and personal interests, evaluate their skills within the given area, and achieve their best in their most desirable way.
