KNOWLEDGE AND AWARENESS MAPPING PLATFORM

KNOWLEDGE SESSION 2024: EPISODE 48

Organised By: Knowledge & Awareness Mapping Platform (KAMP)
In Knowledge Alliance with CSIR -NIScPR and M/s NCPL

The importance of teacher training programs in elevating the quality of education was emphasized throughout the session. These programs play a vital role in equipping teachers with the necessary skills, knowledge, and support to excel in their profession, thereby positively impacting students, schools, and the education system at large.

During the workshop, Ms. Kashish delved into the significance of social-emotional competence in the classroom environment. Her insights, encompassing topics such as mood reflection, addressing socio-emotional difficulties in students, creating

a comfortable classroom space, and employing strategies like storytelling circles and framing techniques, offered invaluable guidance to educators. Additionally, Ms. Behl highlighted the pivotal role teachers play in shaping the nation's future, shedding light on the underappreciated influence they wield within the education system.

Let's frame a Strategy !!!

High	Educate Role: <i>Mentor</i>	Control Role: <i>Specialist</i>
Low	Ignore Role: <i>Buddy</i>	Manage Role: <i>Guide</i>
	Low	High
	Probability

Socio-Emotional Difficulties in Students

2024-03-28 16:24:11

Overall, the session promised to be engaging and enlightening, offering practical strategies and actionable takeaways for educators to implement in their classrooms. Ms. Behl's contributions reaffirmed the importance of prioritizing students' emotional well-being in educational settings, paving the way for a more nurturing and supportive learning environment.

Noteworthy in the session was Mr. Aniket Arora's announcement regarding upcoming Scientific Excursions and Teacher Training programs organized by KAMP at various CSIR Labs and ISRO Centers throughout the year, emphasizing KAMP's commitment to providing unique opportunities for both students and teachers.

KAMP's fortnightly workshops aim to help students develop creativity, meaningful learning, and critical reading and thinking skills, bringing out their inherent abilities. The vision of KAMP is to identify and capture the Scientific and Technological temperament in students, contributing to making India a Global Leader in the fields of science, technology, and the humanities.

These workshops, conducted by KAMP, cover various topics falling under the categories of science, technology, and innovation, Scientific and Life Skills, Career and Professional Development, Academic development, and training trainers and teachers.

KAMP believes that exposure to such topics from experts within specific fields helps students become aware of real-life situations and challenges, develop a problem-solving nature, understand their core values and personal interests, evaluate their skills within the given area, and achieve their best in their most desirable way.
